Conference Learning Outcome Statement:

The Registered Nurse and Advance Practice RN working with women and newborn will apply the current and evidence-based approaches for assessing and managing their health issues to improve and strengthen clinical practices to achieve the highest quality patient outcomes. Topics included in this conference address nursing burnout, small baby programs, fetal monitoring, stroke in pregnancy, patient navigators, human trafficking, "period of purple crying", mental health, health and racial disparities, and creating value in health care. They will recognize best care practices to address these issues.

Conference Objectives:

1. Nurture an environment that supports the contributions of nurses
2. Explore strategies to drive change and promote innovation
3. Foster connections to improve outcomes
4. Promote a deeper understanding of conditions unique to each patient population

Approval statement:

University Health System is an approved as a provider of nursing continuing professional development by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

12 contact hours will be awarded for all participants who attend the entire conference.

The Registered Nurse and Advance Practice RN working with women and newborn will know the current and evidence-based approaches for assessing and managing their health issues; improve and strengthen clinical practices to achieve the highest quality patient outcomes.
